BILLING CODE 3810-FF-P

Notice of Public Hearing for the Draft Environmental Impact Statement for Disposal and Reuse of the Former Naval Hospital; Philadelphia, PA

Pursuant to Council on Environmental Quality regulations (40 CFR Parts 1500-1508), implementing procedural provisions of the National Environmental Policy Act, the Department of the Navy has prepared and filed with the U.S. Environmental Protection Agency the Draft Environmental Impact Statement (DEIS) for disposal and reuse of the former Naval Hospital at Philadelphia, Pennsylvania.

In accordance with legislative requirements in the 1990 Base Closure and Realignment Act (Public Law 101-510) and the results of the 1988 Base Closure and Realignment Process, Naval Hospital Philadelphia was directed to be closed and made available for reuse. The former Naval Hospital Philadelphia is located in the southern portion of the city of Philadelphia. The Base encompasses approximately 49 acres of

land and includes a total of 59 buildings and structures.

The proposed action addressed in the DEIS is the disposal and subsequent redevelopment of lands/facilities determined surplus to the needs of the Federal Government. A Community Reuse Plan was prepared by the Mayor of Philadelphia's Commission on Defense Conversion, which included representation of local groups and organizations from throughout the region. The Preferred Redevelopment Plan proposes demolition of existing structures on the former Naval Hospital property and identifies areas to be redeveloped for a nursing home, development of market-rate townhomes, and expansion of the adjacent FDR Park including new parking area.

In the preparation of the Reuse Plan, consideration was given to the possible reuse of the Property Base by other Federal, State, and local agencies, homeless support organizations, business interests and recreational users. Various reuse scenarios were developed by the Commission, and a preferred Reuse Plan was identified and approved by the Commission following public review and evaluation. The DEIS has been prepared to address environmental consequences of implementing the comprehensive Reuse Plan. Potential impacts addressed include, but are not limited to, community services, traffic, air quality, water quality, vegetation and wildlife, cultural resources, noise and land use.

The DEIS has been distributed to various Federal, State, and local agencies, elected officials, special interest groups, libraries and the media. A limited number of single copies are available at the address listed at the end of this notice.

The Department of the Navy will hold a public hearing to inform the public of the DEIS findings and to solicit comments. The hearing will be held at 7:30 p.m. on Wednesday, March 22, 1995, at the Holy Spirit Church Hall, 1835 Hartranft Street, Philadelphia, Pennsylvania. Should inclement weather preclude holding the public scoping meeting on this date, the alternate date for the meeting will be Thursday, March 23, 1995 (meeting to be held at the same location). If there is any question of meeting date in the event of inclement weather, contact the person listed at the end of this notice for confirmation. The public hearing will continue until 10:30 p.m. or until the conclusion of public comments. The public hearing will be conducted by the Navy. Federal, State, and local agencies and interested parties are invited and urged to attend or be represented at the

hearings. Oral statements will be heard and transcribed by a stenographer; however, to assure the accuracy of the record, all statements should be submitted in writing. All statements, both oral and written, will become part of the public record and equal weight will be given to both oral and written statements.

In the interest of available time, each speaker will be asked to limit their remarks to five minutes. Longer statements should be summarized at the public hearing and submitted in writing either at the hearing or mailed to the address listed at the end of this announcement. All written statements must be postmarked by Tuesday, April 18, 1995, to become part of the official record.

Additional information concerning this notice may be obtained by contacting the Commanding Officer, Northern Division, Naval Facilities Engineering Command, 10 Industrial Highway, MSC 82, Lester, PA 19113 (Attn: Mrs. Tina Deininger, Code 202), telephone 610-595-0759.

Dated: March 1, 1995.
